SUBJECT INDEX TO VOLUME 163

ABDOMEN
surgery, set of new hand held, deep retractors for, 76
upper, midline incision, anatomic staple closure, 284
trauma, blunt, hollow viscus rupture due to, 552
penetrating, moxalactam versus gentamicin and clindamycin in, prospective randomized study of, 1
upper, incision, midline, closure, anatomic stapler, 284
wound, closure, new technique, to assist in, weave, 480
Adrenal glands
mass, discovered, incidental, 203
Aneurysms
aortic, repair, and acute acalculous cholecystitis, 475
Antibiotics
comparison of piperacillin, cephalothin and cefoxitin in prevention of postoperative infections in patients undergoing vaginal hysterectomy, 421
experimental, levels in small intestine, 561
outcome of subsequent pregnancies following, after primary and multiple spontaneous abortions, 243
Anus
stenosis, postsurgical classification and management, 60
Aorta
aneurysms, repair, and acute acalculous cholecystitis, 475
grafts, complications, late, surgery, 251
and renal atherosclerotic disease, 54
surgery, for late complications of grafts of, 251
Ascites
fluid, replacement, by normal saline solution, prevention of coagulopathy after placement of peritoneovenous shunt with, 315

BACTERIA
clostridial, significance in intra-abdominal sepsis, 310
Bile
roentgenography, ^{99m}Tc HIDA, in teaching hospital practice, two year experience with, 30
Biliary tract
decompression, technique, simple, hepaticocholecystojejunostomy, 174
ducts, common, anastomosis, and duodenum, new technique, 581
common, excision, hazards following T-tube removal, 153
stricture, inflammation, after endoscopic sphincterotomy, 324
Blood
coagulation, disorder, prevention, after placement of peritoneovenous shunt, with replacement of ascitic fluid by normal saline solution, 315
hemorrhage, of hepatic surface, control, Georta's fascia flap for, 485
shock, experimental, beta-endorphin in, 137
plasma, serum albumin, rapid replacement of, in patients receiving total parenteral nutrition, 359
platelets, experimental, behavior, after microarterial anastomosis, influence of dextran and saline solution upon, 257
sepsis, due to triple lumen central venous catheters, 14
experimental, lethal, recovery, effect of prior administration of steroids upon, 335
intra-abdominal, significance of clostridial isoaltes in, 310
shunt, splenorenal, distal, patency, intraoperative determination of, 80
venous, catheters, central, triple lumen, sepsis, due to, 14
central pressure, redirection of, catheters, using flow directed technique, 482
perforator insufficiency, long term review of procedure for, 117
surgery, splenorenal shunt, distal, patency, intraoperative determination of, 80
Blood vessels
anastomosis, microarterial, influence of dextran and saline solution upon platelet behavior after, 257
arteries, intimal hyperplasia, experimental, and endothelial loss, provoked by adventicectomy of small artery, 327
peripheral, occlusive, percutaneous transluminal dilation treatment of, successful, improvement after, 453
sclerosis, aortic and renal, 54
small, removal of adventitia, experimental, provoke endothelial loss and intimal hyperplasia, 327
arteriovenous, fistula, temporary, in thrombosis of ileofemoral vein, morphologic factors and function after removal, follow-up evaluation of, 111
experimental, influence of dextran and saline solution upon platelet behavior after microarterial anastomosis, 257
shunt, peritoneovenous, placement, prevention of coagulopathy after, with replacement of ascitic fluid by normal saline solution, 315
surgery, bypass, femorocrural, composite, using small caliber autogenous vein cuff and umbilical vein graft, 178
veins, access, totally implantable system for, insertion, operative technique for, 381
grafts, bypass, in situ, transition, 22
ileofemoral, thrombosis, removal and temporary arteriovenous fistula, morphologic factors and function after, follow-up evaluation of, 111
in situ, saphenous, bypass, improved skin grid for intraoperative angiography during, 383
surgery, peritoneovenous shunt, placement, prevention of coagulopathy after, with replacement of ascitic fluid by normal saline solution, 315
umbilical, grafts, and small caliber autogenous vein cuff, for composite femorocrural bypass, 178
vena cava, filter, prophylactic, placement, new criteria for, 405
Breast
aspiration, and nipple discharge cytology, 415
cancer; carcinoma, resection, margin, deep, and local recurrence in, 513
lesions, occult, 107
nipple, discharge, cytology, and aspiration of breast, 415

CANCER
breast, carcinoma, resection, margin, deep, and local recurrence in, 513
colon, carcinoma, and rectum, effect of surgery on monocyte function in patients with, 235
carcinoma, and rectum, surgery, role of preoperative intravenous pyelogram in, 65
sigmoid, carcinoma, surgery, elective, Hartmann's resection, role of in, 49
esophagus, carcinoma, cervical, resection, reconstruction using pedicled jejunal segments after, 145
rectum, carcinoma, and colon, effect of surgery on monocyte function in patients with, 235

carcinoma, and colon, surgery, role of preoperative intravenous pyelogram in, 65
surgery, elective, Hartmann's resection, role of in, 49
recurrence, breast, local, and deep resection margin, 513
stomach, carcinoma, total gastrectomy for, nutritional status, function of small intestine and jejunal morphology after, 225
surgery, for carcinoma of colon and rectum, role of preoperative intravenous pyelogram in, 65
elective, for carcinoma of rectum and sigmoid colon, role of Hartmann's resection in, 49
resection, cervical esophagus, reconstruction, using pedicled jejunal segments, 145

Catheter
infected, clinical significance and etiology of, used for total parenteral nutrition, 469
venous, central, triple lumen, sepsis, due to, 14

Cells
monocyte, function, surgery, effect on, in patients with carcinoma of colon and rectum, 235
ureteral, illuminated, use of, for repair of obstructed ureters, in transplanted kidneys, 367

Collective review
Advances in management of carcinoma of breast, 89
Management of primary sarcomas of pulmonary artery and reperfusion intrabronchial hemorrhage, 291
Open management of septic abdomen, 587
Perspectives on staging approachs in malignant lymphomas, 193
Review of tumors of salivary gland, 399
Squamous cell carcinoma of colon and rectum, 493

DISEASE
hydatid, peritoneal, experimental, effect of prophylactic mebendazole in, 351

Drugs
autonomic, experimental, influence on motility of sphincter of Oddi, 209
cefoxitin, and cephalothin and piperacillin, comparison of, in prevention of postoperative infections in patients undergoing vaginal hysterectomy, 421
cephalothin, and piperacillin and cefoxitin, comparison of, in prevention of postoperative infections in patients undergoing vaginal hysterectomy, 421
clindamycin, and gentamicin versus moxalactam, in penetrating abdominal trauma, prospective randomized study of, 1
and piperacillin plus gentamicin, in women with pelvic infections, 156
dextran, experimental, and saline solution, influence upon platelet behavior after microarterial anastomosis, 257
experimental, influence of dextran and saline solution upon platelet behavior after microarterial anastomosis, 257
gentamicin, and clindamycin versus moxalactam, in penetrating abdominal trauma, prospective randomized study of, 1
plus piperacillin and clindamycin, in women with pelvic infections, 156
mebendazole, prophylactic, effect of, in experimental peritoneal hydatidosis, 351
moxalactam, versus gentamicin and clindamycin in penetrating abdominal trauma, prospective randomized study of, 1
piperacillin, and cephalothin and cefoxitin, comparison of, in prevention of postoperative infections in patients undergoing vaginal hysterectomy, 421
and clindamycin plus gentamicin, in women with pelvic infections, 156

EDITORIAL
Carotid endarterectomy, 263
Hair and asepsis and antiseptis, 479
Requiem for routine operative cholangiogram, 363

Endoscopy
Congo Red test, simplified, for completeness of vagotomy, 287
and retrograde cholangiopancreatography, after acute pancreatitis, 354
and sphincterotomy, cholangitis after, in patients with stricture of biliary duct, 324

Esophagus
cancer; carcinoma, cervical, resection, reconstruction using pedicled jejunal segments, 145
reflux, and stomach, not increased by highly selective vagotomy, 547
surgery, portal disconnection using anastomotic button, for bleeding varices in cirrhosis, long term results after, 121
resection, for carcinoma, reconstruction using pedicled jejunal segments after, 145
varix, bleeding, portal disconnection of, using anastomotic button for, in cirrhosis, long term results after, 121

FASCIA
experimental, suture closure, tight, biochemical effects on, 448
Gerota's flap, for control of hemorrhage of hepatic surface, 485

Flaps
skin, transverse of sigmoid loop colostomy fixed by, 372

Fluids
hypertonic, and isotonic, experimental, comparison, in resuscitation from hypovolemic shock, 219
isotonic, and hypertonic, experimental, comparison, in resuscitation from hypovolemic shock, 219

Foot
sole, needle in, 573

GALLBLADDER
anastomosis, and hepatic duct and jejunum, simple technique for decompression of biliary tract, 174
contractility, in vitro, effects of age, gender and female sex hormones upon, 555
experimental, contractions, effect of substance P on, 163
inflammation, acalculous, acute, complicating aortic aneurysm repair, 475
surgery, need for careful dissection in Mooseman's area during, 169

Gastrointestinal tract
alimentation, hyper-, given intravenously, for treatment of fistulas of, 345
appendix, inflammation, recurrent and chronic, 11
fistulas, treatment, with hyperalimentation given intravenously, 345

Glucose
intraoperative monitoring, and preoperative localization, management, in pancreatic insulinoma, 509

Groin
hernia, recurrent, preperitoneal synthetic mesh replacement for, 285

HEART
muscle, myocardium, injury, ischemic, acute, experimental, parathyroid hormone reduces, 523
resuscitation, experimental, from hypovolemic shock, comparison of isotonic and hypertonic fluids in, 219

Hernia
inguinal, prosthetic, properitoneal, through Pfannestiel approach, 465
paracolostomy, prevent, primary strengthening of colostomy with Marlex® mesh, 579
recurrent, preperitoneal synthetic mesh replacement for, 285
repair, use of linear staplers for, 75
surgery, in adults, value of routine pathology in, 518

Hormones
parathryoid, experimental, reduces acute ischemic injury of myocardium, 523
sex, females, and age and gender,

effects upon contractility of human gallbladder in vitro, 555
Hospitals
intensive care unit, salvageable trauma patients in, and diagnosis-related group, 539
teaching, two year experience with ^{99m}Tc HIDA cholescintigraphy in, 30

INSTRUMENTS AND APPARATUS
anastomotic staple closure of midline incision of upper part of abdomen, 284
catheters, central venous pressure, redirection of, using flow directed technique, 482
ureteral, illuminated, use of, for repair of obstructed ureters in transplanted kidneys, 367
clamps, upper and lower, new, for use in anterior resection of rectum by hand suture or stapling techniques, 568
drains, sump, intraperitoneal, postoperative management, bedside radionuclide scanning in, 133
filter, vena cava, prophylactic, placement, new criteria for, 405
hepatic parenchymal suction dissector, 267
home made colostomy bag, 277
retractors, abdominal, deep, hand held, new, set of, 76
laser, Doppler, examination of peripheral microvascular reactivity, 410
ND:YAG, experimental, for resection of liver, 437
simple handheld device for, 489
staplers, end to end anastomosis, for anterior resection of rectum, recurrence and survival after, 231
linear, use of, to facilitate hernial repair, 75
TA, for partial splenectomy, 575
T tube, hazards following removal of, after choledochotomy, 153
ring, fixation of, 279
Insulin
and glucagon, experimental, conjoint administration, influence of, upon hepatic regeneration, 443
Intestines
anastomosis, pancreatojejunal, secured technique for, in pancreaticoduodenectomy, 378
cancer; carcinoma, colon and rectum, surgery, effect on monocyte function in patients with, 235
carcinoma, colon and rectum, surgery, preoperative intravenous pyelogram, role of in, 65
rectum and sigmoid, surgery, elective, role of Hartmann's resection in, 49
cecum, reservoir, continent, volume capacity and pressure characteristics, 42
colon, cancer; carcinoma, and rectum, surgery, effect on monocyte function in patients with, 235
cancer; carcinoma, and rectum, surgery, preoperative intravenous pyelogam, role of in, 65
diverticulitis, ureteral involvement, secondary to, 215
Hirschsprung's disease, surgical treatment, in adults, 458
sigmoid, cancer; carcinoma, and rectum, surgery, elective, role of Hartmann's resection in, 49
surgery, bag, home made, 277
how long is 5 centimeter margin, 101
stoma, strengthening, primary, new approach, with Marlex® mesh, to prevent paracolostomy hernia, 579
transverse or sigmoid loop, fixed by skin flaps, 372
diverticula, inflammation of colon, ureteral involvement secondary to, 215
duodenum, and pancreas, surgery, secured technique for pancreatojejunal anastomosis in, 378
stump, difficult, safe closure of, 73
trans-, surgery, anastomosis, and common bile duct, new technique, 581
ulcers, peptic, perforation, emergency, proximal gastric vagotomy in, 531
excision, and cysts, loop, exclusion, for treatment of pancreatic pseudocyst, 78
ileum, surgery, Koch, modified technique for, 376
jejunum, anastomosis, and hepatic duct and gallbladder, simple technique for decompression of biliary tract, 174
morphology, and nutritional status and function of small intestine, after total gastrectomy for carcinoma of stomach, 225
and pancreas, anastomosis, secured technique for, in pancreaticoduodenectomy, 378
pedicled segments, use in reconstruction of cervical esophagus, after resection for carcinoma, 145
rectum, anastomosis, anterior, stapled, aid in construction of, 177
cancer; caracinoma, and colon, surgery, preoperative intravenous pyelogram, role of in, 65
and sigmoid, surgery, elective, role of Hartmann's resection in, 49
surgery, effect on monocyte function in patients with, 235
resection, anterior, new upper and lower clamps for use in, by hand suture or stapling, 568
anterior, recurrence and survival after, using end to end anstomotic stapler, 231
roentgenography, preoperative, role in surgery for carcinoma of colon and rectum, 65
small, experimental, antibiotic levels in, 561
fistula, complicated, method of collecting effluent from, 375
function, and nutritional status and jejunal morphology, after total gastrectomy for carcinoma of stomach, 225
surgery, for carcinoma of colon and rectum, preoperative intravenous pyelogram, role of in, 65
colon, bag, home made, 277
how long is 5 centimeter margin, 101
transverse or sigmoid loop, fixed by skin flaps, 372
duodenum and pancreas, secured technique for pancreatojejunal anastomosis in, 378
effect on monocyte function in patients with carcinoma of colon and rectum, 235
elective, rectum and sigmoid, for carcinoma, role of Hartmann's resection in, 49
Isotopes
scintiscan, radionuclide, bedside, in postoperative management of intraperitoneal sump drains, 133
^{99m}Tc HIDA, bile, in teaching hospital practice, two year experience, 30

KIDNEYS
and aortic atherosclerotic disease, 54
blood supply, venous, shunt, and spleen, distal patency, intraoperative determination of, 80
transplantation, repair of obstructed ureters in, use of illuminated ureteral catheters for, 367

LIGAMENT
falciform, tourniquet, partial splenectomy with, 281
Liver
cirrhosis, bleeding esophageal varices in, portal disconnection of esophagus using anastomotic button for, 121
experimental, regeneration, influence of conjoint administration of insulin and glucagon upon, 443
resection, with ND:YAG laser for, 437
hemorrhage, control, Georta's fascia flap for, 485
infection, hydatidosis, normothermic ischemia, improved results with pericystectomy in, 127
parenchyma, suction dissector, 267

regeneration, experimental, influence of conjoint administration of insulin and glucagon upon, 443
surgery, resection, experimental, ND:YAG laser for, 437
transplantation, experimental, a clinical low flow venovenous bypass in, 33
Lymphatic system
lymph nodes, axillary, dissection, horseshoe incision and approach, technical and aesthetic considerations, 369

METABOLISM
proteins, body, kinetics, perioperative intravenous nutritional support, 303
Muscles
anal, sphincter of Oddi, motility, experimental, influence of autonomic drugs on, 209
sphincter, anal, division, endoscopic, cholangitis after, in patients with stricture of biliary tract, 324

NERVES
cranial, vagus, excision, completeness, simplified endoscopic Congo Red test for, 287
vagus, excision, highly selective, gastroesophageal reflux is not increased by, 547
laryngeal, paralysis, surgical management, new approach to, after thyroidectomy, 543
Nutrition
parenteral, for conservative treatment of external pancreatic fistulas, alone or in combination with continuous intravenous infusion of smoatostatin, glucagon or calcitonin, 428
of injured patient, 37
total, clinical significance and etiology of infected catheters used for, 469
rapid replacement of serum albumin in, 359
status, and function of small intestine and jejunal morphology after total gastrectomy for carcinoma of stomach, 225
support, intravenous, perioperative, body protein kinetics during, 303

PANCREAS
biopsy, percutaneous, computed tomography guide, evaluation of, 497
calculi; surgery, transampullary extraction, 17
cysts, pseudo-, treatment, exlcusion loop cystoenterostomy for, 78
fistula, external, treatment, conservative, with parenteral nutrition alone, or in combination with continuous infusion of somatostatin, glucagon or calcitonin, 428
inflammatory, acute, roentgenography, endoscopic and retrograde, after, 354
roentgenography, endoscopic and retrograde, after acute inflammation of, 354
surgery, and duodenum, secured technique for pancreatojejunal anastomosis in, 380
and jejunum, anatomosis, secured technique for, in pancreaticoduodenectomy, 380
transampullary extraction of calculi of, 17
tumors, insulinoma, management, preoperative localization and intraoperative glucose monitoring in, 509
Parathyroid glands
experimental, reduces acute ischemic injury of myocardium, 523
hyper-, primary, role of ultrasonography in evaluation of, 503
tumors, adenomas, localization, preoperative, thallium-technetium subtraction scanning for, 82
Pathology
routine, value in herniorrhaphy performed upon adults, 518
Pediatrics
surgery, liver, transplantation, low flow venovenous bypasses in, 33
trauma, splenic conservation after, 536
Pelvis
infection, in women, piperacillin and clindamycin plus gentamicin in, 156
Peritoneum
experimental, hydatidosis, effect of prophylactic mebendazole in, 351
inflammation, purulent, treatment, continuous lavage postoperatively in, 433
intra-, sump drains, postoperative management, bedside radionuclide scanning in, 133
lavage, continuous, postoperatively, in treatment of purulent peritonitis, 433
Pharynx
surgery, posterior, new approach to old problem, 583
Psychiatry
consultation, delirium in surgical patients seen at, 104

ROENTGEN RAYS
diagnosis, adenxa, evaluation, during early pregnancy, 319
angiography, intraoperative, improved skin grid for, during in situ saphenous vein bypass, 383
computed tomography, guided percutaneous biopsy of pancreas, evaluation of, 497
intravenous pyelogram, preoperative, role of, in operation for carcinoma of colon and rectum, 65
pancreas, endoscopic and retrograde, after acute pancreatitis, 354
ultrasonography, role of, in evaluation of primary hyperparathyroidism, 503

SACRUM
surgery, resection, with preservation of continence, 270
Saline
solution, experimental, and dextran, influence of, upon platelet behavior after microarterial anastomosis, 257
Shock
experimental, hemorrhagic beta-endorphin in, 137
hypovolemic, comparison of isotonic and hypertonic fluids in resuscitation from, 219
hemorrhagic, experimental, beta-endorphin in, 137
hypovolemic, experimental, resuscitation, comparison of isotonic and hypertonic fluids in, 219
Skin
flaps, transverse or sigmoid loop colostomy fixed by, 372
grafts, and improving cosmesis of excision of melanoma, simple technique for, 491
Spleen
blood vessels, venous, shunt, and renal, distal patency, intraoperative determination of, 80
conservation, after trauma, in children, 536
Steroids
experimental, effect of prior administration of on recovery from lethal sepsis, 335
surgery, partial, using TA stapler, 575
Stomach
cancer; carcinoma, surgery, total, nutritional status, function of small intestine and jejunal morphology after, 225
and esophagus, reflux, not increased by highly selective vagotomy, 547
surgery, Billroth II, stapled, direct anastomotic visualization in, 487
partial, with a tourniquet of falciform ligament, 281
simplified endoscopic Congo Red test for completeness of, 287
total, for carcinoma of, nutritional status, function of small intestine and jejunal morphology after, 225
vagotomy, proximal, in emergency peptic ulcer perforation, 531
Surgeon's library
Brahms and Billroth, 385
Life of Carl Beck and an important interval with Alexis Carrel, 85
Sydney Ringer and origins of cardioplegia, 183

Surgery
delirium in surgical patients seen at psychiatric consultation, 104
elective, for carcinoma of rectum and sigmoid colon, role of Hartmann's resection in, 49
experimental, adventicectomy of small artery, provokes endothelial loss and intimal hyperplasia, 327
antibiotic levels in small intestine, 561
beta-endorphin in canine hemorrhagic shock, 137
biochemical effects of tight suture closure upon fascia, 448
comparison of isotonic and hypertonic fluids in resuscitation from hypovolemic shock, 219
effect of, prior administration of steroids upon recovery from lethal sepsis, 335
substance P on contractions of gallbladder, 163
influence of, autonomic drugs on motility of sphincter of Oddi, 209
conjoint administration of insulin and glucagon upon hepatic regeneration, 443
dextran and saline solution upon platelet behavior after microarterial anastomosis, 257
parathyroid hormone reduces acute ischemic injury of myocardium, 523
peritoneal hydatidosis, effect of prophylactic mebendazole, 351
replacement of liver, low flow venovenous bypasses in 33
resection of liver with ND:YAG laser, 437
infection, pelvic, in women, piperacillin and clindamycin plus gentamicin in, 156
postoperative infections, prevention, comparison of piperacillin, cephlothin and cefoxitin, in patients undergoing vaginal hysterectomy, 421
postoperative study, acute acalculous cholecystitis complicating aortic aneurysm repair, 475
aortic and renal atherosclerotic disease, 54
aspiration of breast and nipple discharge cytology, 415
body protein kinetics during perioperative intravenous nutritional support, 303
careful dissection in Moosman's area during cholecystectomy, 169
cholangitis after endoscopic sphincterotomy in patients with stricture of biliary tract, 324
classification and management of postsurgical anal stenosis, 60
clinical significance and etiology of infected catheters used for total parenteral nutrition, 469
conservative treatment of external pancreatic fistulas with parenteral nutrition alone or in combination with continuous intravenous infusion of somatostatin, glucagon or calcitonin, 428
of continuous peritoneal lavage postoperatively in treatment of purulent peritonitis, 433
effect of, age, gender and female sex hormones upon contractility of human gallbladder in vitro, 555
surgical procedure on monocyte function in patients with carcinoma of colon and rectum, 235
endoscopic retrograde cholangiography after acute pancreatitis, 354
fistulas of gastrointestinal tract treated with hyperalimentation given intravenously, 345
follow-up evaluation of venous morphologic factors and function after thrombectomy and temporary arteriovenous fistula in thrombosis of ileofemoral vein, 111
gastroesophageal reflux is not increased by highly selective vagotomy, 547
hazards following T-tube removal after choledochotomy, 153
hollow viscus rupture due to blunt trauma, 552
how long is 5 centimeter margin, 101
improved results with pericystectomy in normothermic ischemia for hepatic hydatidosis, 127
improvement after successful percutaneous transluminal dilation treatment of occlusive peripheral arterial disease, 453
incidentally discovered mass of adrenal gland, 203
local recurrence and deep resection margin in carcinoma of breast, 513
long term, results after portal disconnection of esophagus using anastomotic button for bleeding esophagel varices in cirrhosis, 121
review of procedures for venous perforator insufficiency, 117
management of intraperitoneal sump drains, bedside radionuclide scanning in, 133
new, approach of paralysis of laryngeal nerve after thyroidectomy, 543
criteria for placement of prophylactic vena cava filter, 405
nutritional study, function of small intestine and jejunal morphology after total gastrectomy for carcinoma of stomach, 225
occult lesions of breast, 107
operation for late complications of aortic grafts, 251
outcome of subsequent pregnancies following antibiotic therapy after primary and multiple spontaneous abortions, 243
parenteral nutrition of injured patient, 37
premature rupture of amniotic membrane, nonintervention in, 5
preoperative localization and intraoperative glucose monitoring in management of pancreatic insulinoma, 509
prevention of coagulopathy after placement of peritoneovenous shunt with replacement of ascitic fluid by normal saline solution, 315
prospective randomized study of moxalactam versus gentamicin and clindamycin in penetrating abdominal trauma, 1
proximal gastric vagotomy in emergency peptic ulcer perforation, 531
rapid replacement of serum albumin in patients receiving total parenteral nutrition, 359
reconstruction using pedicled jejunal segments after resection of carcinoma of cervical esophagus, 145
recurrence and survival after anterior resection of rectum using end to end anastomotic stapler, 231
recurrent and chronic appendicitis, 11
role of ultrasonography in evaluation of primary hyperparathyroidism, 503
safe closure of difficult duodenal stump, 73
significance of clostridial isolate in intra-abdominal sepsis, 310
sonographic evaluation of adnexa during early pregnancy, 319
splenic conservation after trauma, in children, 536
surgical treatment of Hirschsprung's disease in adults, 458
transampullary extraction of pancreatic calculi, 17
transition to in situ vein bypass grafts, 22
two year experience with ^{99m}Tc HIDA cholescintigraphy in teaching hospital practice, 30
ureteral involvement secondary to diverticulitis of colon, 215
use of illuminated ureteral

catheters for repair of obstructed ureters in transplanted kidneys, 367
value of routine pathology in herniorrhaphy performed upon adults, 518
volume capacity and pressure characteristics of continent cecal reservoir, 42
technique, and aesthetic consideration in horseshoe incision and approach in axillary node dissection, 369
aid in construction of stapled anterior rectal anastomosis, 177
anastomotic staple closure of midline incision of upper part of abdomen, 284
of collecting effluent from complicated fistula of small intestine, 375
composite femorocrural bypass using small caliber autogenous vein cuff and umbilical vein graft, 178
direct anastomotic visualization in stapled Billroth II gastrectomy, 487
exclusion loop cystoenterostomy for treatment of pancreatic pseudocyst, 78
flow directed, in redirection of central venous pressure catheters, 482
Gerota's fascia flap for control of hemorrhage of hepatic surface, 485
hepatic parenchymal suction dissector, 267
home made colostomy bag, 277
improved skin grid for intraoperative angiography during in situ saphenous vein bypass, 383
incision, midline, vertical, intraneural and intravascular extension for increased exposure in, 181
for insertion of totally implantable system for venous access, 381
intraoperative determination of patency of distal splenorenal shunt, 80
modified, for Koch ileostomy, 376
needle in sole of foot, 573
new, approach to primary strengthening of colostomy with Marlex® mesh to prevent paracolostomy hernia, 579
to assist in closure of abdominal wound, weave, 480
of transduodenal choledochoduodenostomy, 581
upper and lower clamps for use in anterior resection of rectum by hand suture of stapling, 568
one handed ties, new, including surgeon's knot, 70
partial splenectomy with tourniquet of falciform ligament, 281
using TA stapler, 575
Pfannestiel approach, for properitoneal prosthetic inguinal hernioplasty, 465
posterior pharyngostomy as new appraoch to old problem, 583
preperitoneal synthetic mesh replacement for recurrent hernia of groin, 285
ring fixation of T tubes, 279
sacral resection with preservation of continence, 270
secured, for pancreatojejunal anastomosis in pancreaticoduodenectomy, 380
sepsis due to triple lumen central venous catheters, 14
set of new hand held, deep abdominal retractors, 76
simple, endoscopic Congo Red test for completeness of vagotomy, 287
handheld device for ND:YAG laser, 489
hepaticocholecystojejunostomy, for decompression of biliary tract, 174
for improving cosmesis of excision of melanoma and skin grafting, 491
thallium-technetium subtraction scanning for preoperative localization of adenoma of parathyroid gland, 82
transverse or sigmoid loop colostomy fixed by skin flaps, 372
use of, linear staplers to facilitate hernial repair, 75
paper tape in wound closures, 577
Surgical pros and cons
167-168; 265-266; 365-366
Sutures
technique, hand, or stapling, new upper and lower clamps for use in anterior resection of rectum by, 568

THROMBOSIS
surgery, venous, ileofemoral, follow-up evaluation of venous morphologic factors and function after, and temporary arteriovenous fistula in, 111
venous, ileofemoral, surgery, follow-up evaluation of venous morphologic factors and function after, and temporary arteriovenous fistula in, 111
Thyroid gland
excision, paralysis of laryngeal nerve after, surgical management, new approach, 543
Tissue
experimental, adventitia, removal of small artery, provokes endothelial loss and intimal hyperplasia, 327
Transplants
grafts, aorta, complications, late, surgery for, 251
veins, bypass, in situ, transition, 22
kidney, use of illuminated ureteral catheter for repair of obstructed ureters in, 367
liver, experimental, in small dogs and pediatric patients, low flow venovenous bypasses in, 33
Trauma
abdominal, penetrating moxalactam versus gentamicin and clindamycin in, prospective randomized study of, 1
blunt, hollow viscus rupture due to, 552
and parenteral nutrition, 37
salvagable patient, in intensive care unit and diagnosis-related groups, 539
splenic conservation after, in children, 536
Tumors
adenoma, parathyroid gland, localization, preoperative, thallium-technetium subtraction scanning for, 82
insulinoma, pancreatic, management, preoperative localization and intraoperative glucose monitoring in, 509
melanomas, excision, cosmesis, improving, simple technique for, and skin grafting, 491

URETERS
involvement secondary to diverticulitis of colon, 215
obstruction, repair, use of illuminated catheters for, in transplanted kidneys, 367
Uterus
pregnancy, amniotic membrane rupture, premature, nonintervention, 5
early, sonographic evaluation of adnexa during, 319
termination, spontaneous, primary and multiple, antibiotic therapy, outcome of subsequent pregnancies following, 243

VAGINA
surgery, removal, infections, postoperative, prevention, comparison of piperacillin, cephalothin and cefoxitin in, 421

WOUNDS
abdominal, closure, technique, new, weave, 480
closure, abdominal, technique, new, weave, 480
use of paper tape in, 57
